## Executive Summary

This report summarizes the Asian Infrastructure Investment Bank's (AIIB or the Bank) information disclosure practices under the [Policy on Public Information](#) (PPI) and related Bank policies during the period from Jan. 1 to March 31, 2024.

It is divided into two sections. The first section looks at AIIB's practices in proactive disclosure. The second section provides an overview of AIIB's responses to information requests.

During Q1 2024, the Bank's proactive disclosure of information was all in compliance with AIIB's requirements:

- All institutional information was disclosed in a timely manner in line with the requirements set out in the PPI.
- This report tracks operational information, including the initial Project Summary Information (PSI), project document (PD) and the Client's draft environmental and social (ES) documentation. Disclosure of the initial PSI, PD and Client's ES documentation in Q1 2024 was in line with relevant requirements.

AIIB's Environmental and Social Framework (ESF), as amended through November 2022 replaced the May 2021 ESF and entered into force on Nov. 22, 2022. However, Management, in its discretion may continue to apply the ESF, as amended through February 2019, to Projects that entered the pipeline prior to Oct. 1, 2021. Most projects covered in this report are governed by the 2022 ESF, except for a few projects that were included in AIIB's investment pipeline before Oct. 1, 2021. This report indicates which Environmental and Social Policy (ESP) applies to which projects.

The requirements for the disclosure of the initial PSI for nonsovereign-backed financings (NSBF) and the updated PSI for sovereign-backed financings (SBF) were updated under the Directive on the Operational Policy on Financing (OPF Directive) adopted in October 2023. This report reflects the requirements before and after the adoption of the OPF Directive.

AIIB COVID-19 Crisis Recovery Facility (Facility) ended by the end of 2023. Therefore, this report does not cover projects under the Facility.

The Bank received 127 requests from the [Public Information Request portal](#), an increase of six percent from the previous quarter. All these requests were closed within the required 30 working days upon their receipt. There were no appeals during the reporting period. Project and career opportunities continued to be the top request categories. China, India and Italy are the top three origins of requests.

### 1. Proactive Disclosure

AIIB proactively discloses information according to the [Directive on Public Information](#) on:

<b>Financial Information</b>	<b>Institutional Information</b>	<b>Operational Information</b>
