

Project Summary Information

Date of Document Preparation: September 1, 2024	
Project Name	CITIC Capital Pan Eurasia Fund
Document Code	PD000217-PSI-CYM
Country	Multi-Country
Sector/Subsector	Multi-Sector: Resource Efficiency and Renewables, Food and Water Safety, Logistics, Transportation and related emerging technologies with disruptive potential in these sectors.
Status of Financing	Approved
Project Description	The CITIC Capital Pan Eurasia Fund (“CCPEF”) is a closed-end private equity fund established to provide institutional investors with the opportunity to take advantage of rapidly growing economies and trade flows in Eurasian countries. The Fund focuses on resource efficiency, renewables, food and water safety, logistics, transportation and technology sectors in the region.
Objective	The objective is to mobilize private capital investments into infrastructure and other productive sectors in selected AIIB members via a fund with a market risk-adjusted return.
Expected Results	<p>Project indicators include amongst others:</p> <ul style="list-style-type: none"> • Total amount of private capital mobilized; • Number of institutional investors mobilized; • Capital invested through the Fund; and • Number of full-time equivalent employees working for the Fund’s portfolio companies.
Environmental and Social Category	FI
Environmental and Social Information	AIIB's Environmental and Social Policy (“ESP”) is applicable to the Project. The project has been placed in Category FI because it involves the provision of funds to CCPEF for further investment. After conducting prior review of the initial investments, AIIB delegates the decision-making on the use of AIIB funds to CCPEF, including the selection, appraisal, approval and monitoring of investments in portfolio companies. AIIB will retain the right to review the selection of further investments by the Fund.

	<p>The Fund manager has an existing Environmental, Social and Governance (“ESG”) policy, which defines its approach to integrating ESG risks and value creation opportunities into investments made through its private equity funds. Many of the target sectors present opportunities to finance climate mitigation and/or adaptation (e.g. renewables, water). The Fund manager recognizes the increasing interest from investors in sustainable development outcomes, and AIIB will work with Fund to develop a framework for identifying climate finance opportunities.</p> <p>Furthermore, the Fund manager had enhanced its ESG Management System to reflect the requirements of the ESP, including the development of guidance for each phase of the investment process: screening, due diligence, investment decision and monitoring and reporting. The updated ESG Management System had been reviewed and approved by AIIB prior to the use of AIIB’s funds.</p> <p>The Fund has created an external communication mechanism to periodically disclose its investments and to address third-party views, enquiries or concerns regarding its own ESG processes and outcomes, as well as ESG impacts and performances of its portfolio companies. Investees of AIIB’s financing are required to disclose the ESG information on their subprojects and to establish appropriate subproject-level grievance redress mechanisms (“GRM”).</p>		
AIIB Investment	Fund commitment of up to USD75 million and co-investments of up to USD50 million in total		
Fund Manager	CITIC Capital Holdings Limited		
Date of first disbursement	February 15, 2022		
Contact Points:	AIIB		CITIC Capital Holdings Limited

Date of Concept Decision	July 22, 2019		
Date of Final Review Decision	October 23, 2019		
Date of Financing Approval	December 12, 2019		

Independent Accountability Mechanism	The Project-affected People’s Mechanism (“PPM”) has been established by AIIB to provide an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB’s failure to implement its ESP in situations when their concerns cannot be addressed satisfactorily through Project-level or subproject level GRM or AIIB Management’s processes. For information on how to make submissions to the PPM, please visit https://www.aiib.org/en/policies-strategies/operational-policies/policy-on-the-project-affected-mechanism.html .
